CONTENTS OF VOLUME 86

Vol. 86C, *No.* 1

Allen E. Funk, Frances A. Day and Frank O. Brady	1	Displacement of zinc and copper from copper-induced metallothionein by cadmium and by mercury: *in vivo* and *ex vivo* studies
M. Viswanathan, B. Pilo, J. C. George and R. J. Etches	7	Effects of vagotomy on circulating levels of catecholamines and corticosterone in the pigeon
Stephen M. Taylor and Richard H. Finnell	11	Effect of quinidine and tetrodotoxin on the activation of non-adrenergic nerves in guinea-pig trachealis muscle
B. Kurelec, S. Britvić, S. Krča, W. E. G. Müller and R. K. Zahn	17	Metabolism of some carcinogenic aromatic amines in four species of marine sponges
Sol Oaknin, Mary K. Vaughan, Maureen E. Troiani, George M. Vaughan and Russel J. Reiter	23	Injections of α-melanocyte stimulating hormone affect pineal serotonin, melatonin and *N*-acetyltransferase activity
D. P. Lotshaw and J. W. Jacklet	27	Serotonin induced protein phosphorylation in the *Aplysia* eye
Nicholas R. Price and Christine M. Walter	33	A comparison of some effects of phosphine, hydrogen cyanide and anoxia in the lesser grain borer, *Rhyzopertha dominica* (F.) (Coleoptera: Bostrychidae)
P. B. Lobel and J. F. Payne	37	The mercury-203 method for evaluating metallothioneins: interference by copper, mercury, oxygen, silver and selenium
Eibai Lee, Shiroh Okuno and Kimio Kariya	41	Induction of anionic glutathione transferases in rat liver by propylthiouracil
J. E. McFarlane and I. Alli	45	The effect of lactic acid and the volatile fatty acids on the aggregation behavior of *Periplaneta americana* (L.)
José Luis Avila, María Argelia Polegre and Roland K. Robins	49	Biological action of pyrazolopyrimidine derivatives against *Trypanosoma cruzi*. Studies *in vitro* and *in vivo*
C. R. McCrohan, D. Girdlestone and W. Winlow	55	Effects of halothane on feeding motor activity in the snail *Lymnaea stagnalis*
Caroline M. Czarnecki, Dennis K. Olivero and Alistair S. McVey	63	Plasma uric acid levels in ethanol-fed turkey poults treated with allopurinol
Caroline M. Czarnecki, Alistair S. McVey and Dennis K. Olivero	67	Evaluation of allopurinol as a cardioprotectant in ethanol-fed turkey poults
J. Stenersen, S. Kobro, M. Bjerke and U. Arend	73	Glutathione transferases in aquatic and terrestrial animals from nine phyla
P. A. Voogt, P. J. den Besten, G. C. M. Kusters and M. W. J. Messing	83	Effects of cadmium and zinc on steroid metabolism and steroid level in the sea star *Asterias rubens* L.
Shinji Namoto and Koji Yamada	91	Effects of forskolin, isoproterenol and lithium ions on leucophores of a teleost, *Oryzias latipes*: evidence for involvement of adenylate cyclase in pigment-dispersion response
G. E. Duke, K. Larntz and H. Hunt	97	The influence of cholecystokinin, vasoactive intestinal peptide and secretin on pancreatic and bilary secretion in laying hens
Michael T. Ivy and James G. Townsel	103	Biochemical evidence for cholinergic involvement in the *Limulus* brain
Michael T. Ivy and James G. Townsel	111	A comparative study of high affinity choline uptake and choline utilization in cholinergic and non-cholinergic tissues

M. Gallego-Iniesta and E. Pertierra-Rimada 121 Dieldrin transformation to photodieldrin in liver and kidney of broiler

Steven J. Wieland, Eric Jahn and Alan Gelperin 125 Localization and synthesis of monoamines in regions of *Limax* CNS controlling feeding behavior

W. A. Maher 131 Distribution of selenium in marine animals: relationship to diet

J. Marshall Clark and Fumio Matsumura 135 The action of two classes of pyrethroids on the inhibition of brain Na–Ca and Ca + Mg ATP hydrolyzing activities of the American cockroach

J. C. Turner, V. Shanks, P. J. Osborn and S. M. Gower 147 Copper absorption in sheep

D. F. Sharman 151 The metabolism of dopamine in the blood of ruminant animals: formation of 3,4-dihydroxyphenylacetaldehyde

I. Varanka 157 Effect of mosquito killer insecticides on freshwater mussels

O. González, J. Fernández and M. Martín 163 Inhibition of trout (*Salmo gairdneri* R.) PBG-synthase by some metal ions (Mg^{2+}, Pb^{2+}, Zn^{2+})

Pere Torres, Lluís Tort and Rosa Flos 169 Acute toxicity of copper to Mediterranean dogfish

E. M. K. Lui 173 Metabolism of copper and zinc in the liver and bone of the perinatal guinea-pig

M. Mohamed Fathi, Hoda M. Taha and El-Sayed Fahim 185 Effect of barbitone sodium and thiopental sodium on brain dopamine, noradrenaline. serotonin and 5-hydroxyindoleacetic acid content in *Arvicanthis niloticus*

Daphne Holt, R. Snowden, D. Dinsdale and M. Webb 191 Intestinal uptake and retention of copper in the suckling rat, *Rattus rattus*—IV. Mechanisms of intestinal copper accumulation

Brigitte M. Roldan and Richard R. Shivers 201 The uptake and storage of iron and lead in cells of the crayfish (*Orconectes propinquus*) hepatopancreas and antennal gland

John R. Smith 215 The role of the nervous system in algae-induced gamete release by *Mytilus californianus*

A. Torreblanca, J. Díaz-Mayans, J. Del Ramo and A. Núñez 219 Oxygen uptake and gill morphological alterations in *Procambarus clarkii* (Girard) after sublethal exposure to lead

Vol. 86C, *No.* 2

Reviews

S.-A. Boschmans, M. F. Perkin and S. E. Terblanche 225 Antidepressant drugs: imipramine, mianserin and trazodone

Jerry F. Payne, Linda L. Fancey, Anver D. Rahimtula and Edward L. Porter 233 Review and perspective on the use of mixed-function oxygenase enzymes in biological monitoring

General Papers

A. M. Hilmy, N. A. El-Domiaty and K. Wershana 247 Acute and chronic toxicity of nitrite to *Clarias lazera*

M. I. Michael, A. M. Hilmy, N. A. El-Domiaty and K. Wershana 255 Serum transaminases activity and histopathological changes in *Clarias lazera* chronically exposed to nitrite

A. M. Hilmy, N. A. El-Domiaty, A. Y. Daabees and H. A. Abdel Latife	263	Toxicity in *Tilapia zilli* and *Clarias lazera* (Pisces) induced by zinc, seasonally
E. Carpene, P. Cortesi, S. Tacconi, O. Cattani, G. Isani and G. P. Serrazanetti	267	Cd–metallothionein and metal–enzymes interactions in the goldfish *Carassius auratus*
Akira Murakami	273	Control of ciliary beat frequency in the gill of *Mytilus*—I. Activation of the lateral cilia by cyclic AMP
Akira Murakami	281	Control of ciliary beat frequency in the gill of *Mytilus*—II. Effects of saponin and Brij-58 on the lateral cilia
M. Gallego-Iniesta, E. Pertierra-Rimada and M. Gálvez	289	Factors in the accumulation of dieldrin in broiler organs: doses administered with feed; dose–organ–dieldrin accumulated relationship; toxicological consequences
M. L. Leret, P. Tranque, I. González and J. C. Calvo	295	Possible interaction of the adrenal–gonadal systems on brain catecholamines of adult male rats
M. L. Leret, M. I. González, P. Tranque and A. Fraile	299	Influence of sexual differentiation on striatal and limbic catecholamines
R. H. Scott and I. R. Duce	305	Pharmacology of GABA receptors on skeletal muscle fibres of the locust (*Schistocerca gregaria*)
Tiit Laasberg, Ain Pedak and Toomas Neuman	313	The muscarinic receptor-mediated action of acetylcholine in the gastrulating chick embryo
D. F. H. Dougan, P. Duffield and D. N. Wade	317	Modulation of dopamine receptors in the *Tapes* clam by dextroamphetamine and phenylethanolamine
Lech Zychlinski and Mark R. Montgomery	325	Species differences in lung mitochondrial monoamine oxidase activities
Jalal Keshmirian and Thomas Nogrady	329	Rotifer neuropharmacology—III. Adrenergic drug effects on *Brachionus plicatilis*
Tatsuo Motokawa	333	Cholinergic control of the mechanical properties of the catch connective tissue in the holothurian body wall
Hiroshi Nakanishi, Taizou Tsuda, Shozo Fukui and Teruhisa Hirayama	339	Correlative studies on changes in lipid composition of gills and uptake of chemicals of willow shiner fish (*Gnathopogon caerulescens*) by exposure to detergent
Jeffrey R. Hincks and William A. Brindley	343	Effects of inducer pretreatment on liver function and morphology in the mountain vole *Microtus montanus*
Bernard Hue and Luc Mony	349	Actions of deltamethrin and tralomethrin on cholinergic synaptic transmission in the central nervous system of the cockroach (*Periplaneta americana*)
Anchalee Yongsiri, Kah Hwi Kim, Hiroshi Takeuchi, Noboru Yanaihara, Eisuke Munekata and Yasuo Ariyoshi	353	Effects of synthetic peptides on giant neurons identified in the ganglia of an African giant snail (*Achatina fulica* Férussac)—II
Maija Castrén and Aimo Oikari	357	Changes of the liver UDP-glucuronosyltransferase activity in trout (*Salmo gairdneri* Rich.) acutely exposed to selected aquatic toxicants
Hiroshi Nakanishi, Taizou Tsuda, Shozo Fukui and Teruhisa Hirayama	361	Comparative studies on additive effects of sodium dodecylbenzensulfonate and sodium stearate on uptake of chemicals by willow shiner (*Gnathopogon caerulescens*)
James E. O'Shea	365	Temperature sensitivity of cardiac muscarinic receptors in bat atria and ventricle

P. J. Boyd and R. J. Walker	371	Comparison of the effects of FMRF-amide and pQDPFLRF-amide on identified *Helix* neurons
Takeshi Yamamoto, Midori Anno and Takeshi Sato	375	Effects of paraquat on mitochondria of rat skeletal muscle
C. H. Walker, I. Newton, S. D. Hallam and M. J. J. Ronis	379	Activities and toxicological significance of hepatic microsomal enzymes of the kestrel (*Falco tinnunculus*) and sparrowhawk (*Accipiter nisus*)
K. L. Shephard	383	The influence of water pH on the perivitelline fluid of perch (*Perca fluviatilis*) eggs
Hiroshi Ozaki, Hiromi Nagase, Hideaki Karaki and Norimoto Urakawa	387	Effects of palytoxin on contractile response and calcium movement in guinea-pig taenia coli
M. C. Cabrera-Saadoun, Y. Nys, B. Sauveur and J. Gautron	395	Hyperphosphataemia in histamine injected laying hens
Douglas G. Walton, Alfred B. Acton and Hans F. Stich	399	DNA repair synthesis in cultured fish and human cells exposed to fish S9-activated aromatic hydrocarbons
Jørgen Johansen and Anna L. Kleinhaus	405	The effects of procaine, strychnine and penicillin on nociceptive neurons in leech segmental ganglia
H. Nagase, H. Karaki, H. Ozaki, N. Urakawa, H. Azuma and T. Nakajima	411	Contractile and relaxant effects of jellyfish toxin on the vascular and intestinal tissues
A. Lazou and Is. Beis	415	Effects of adenosine perfusion on the metabolism and contractile activity of *Rana ridibunda* heart
M. Kemali, D. Kemali, M. Maj, N. Lovero and N. Milici	421	Frog retinal pigment screening and lithium
J. B. Jennings, T. R. B. Davenport and I. M. Varndell	425	FMRFamide-like immunoreactivity and arylamidase activity in turbellarians and nemerteans—evidence for a novel neurovascular coordinating system in nemerteans
A. D. Bollands and K. C. Lowe	431	Lymphoid tissue responses to perfluorocarbon emulsion in mice
Satoko Sagawa, Jun-Ichiro Oka and Hideomi Fukuda	437	Descending and segmental spinal pathways differently regulate contractions of antagonistic muscles of frogs *in vitro*
Ryuji Asano and Shigeo Hokari	443	The effect of copper on intact swine erythrocytes
Grant R. Bartlett, Arno R. Schwantes and Adalberto L. Val	449	Studies on the influence of nitrite on methemoglobin formation in Amazonian fishes
